Renal@Home

REMOTE PATIENT MONITORING · NEPHROLOGY

Pay for *results,* not patients.

A cellular blood pressure monitor for your patients, one patient list for your staff, and a monthly billing report for your practice.

YOU PAY ONLY FOR 2+ CODES

FIRST TWO MONTHS FREE

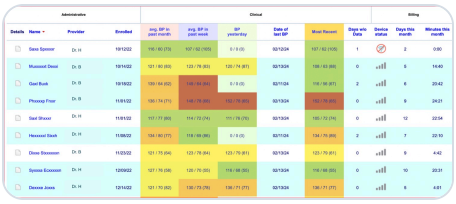

HOW IT WORKS

01

Register in 2 minutes

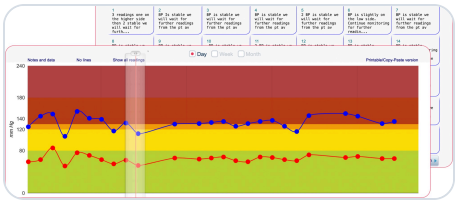

A cellular monitor ships to the patient's home. Readings send on their own, with no Wi-Fi or app to set up.

02

Monitor the readings

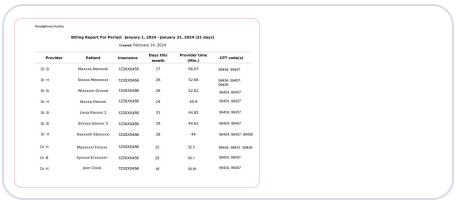

The color-coded list shows who needs attention. Trends and notes show who is drifting before the next visit.

03

Bill the codes

Staff time is tracked automatically, and the monthly report lists the CPT codes each patient qualifies for.

Physician first. You pay Renal@Home only for patients who bill **2+ codes** that month. No upfront cost, cancel anytime.
