=

YOU KEEP, PER YEAR
$74,484

Example: **150 patients registered**. 92 bill 2+ codes, 38 bill one code, 20 take no readings in a typical month. You pay nothing for the 58 under 2 codes: **$34,800 a year not charged.**

How the reimbursement adds up

CODE	WHAT MEDICARE PAYS FOR	PER PATIENT[1]	PATIENTS	REIMBURSEMENT
99454 / 99445	Readings from the cuff (16+ days / 2–15 days a month)	$47 /mo	130	$6,110 /mo
99457	20+ minutes of staff monitoring	$47 /mo	70	$3,290 /mo
99470	10–19 minutes of staff monitoring	$26 /mo	22	$572 /mo
99458	Each extra 20 minutes of staff monitoring	$39 /mo	15	$585 /mo
99453	Setting up the cuff (doesn't count toward the 2 codes)	$20 once	150	$3,000 once
–	Monthly codes for the 20 patients with no readings that month	$0	20	$0
	Annual reimbursement (12 months + setup)			$129,684

What it takes

About 10–20 minutes of staff time per patient a month: a few minutes a day scanning the color-coded list. Staff time is tracked for you, and the monthly billing report lists every code.

1. Medicare national average rates for 2026; your rates vary by location and are generally higher for privately insured patients. Codes 99445 and 99470 are new for 2026.
2. $50 per patient per month up to 200 billing patients; volume rates available. Renal@Home charges only for patients who qualify for two or more CPT codes in a month.

Example: setup billed for all 150 registered patients; the 130 taking readings bill the device code; of those, 92 also bill staff time (70 at 20+ minutes, 22 at 10–19, 15 adding an extra 20). Patients with no readings may bill some months; this example counts them at $0. Calculate your own practice's numbers at www.renalathome.com.
